

SNIA's Storage Developer Conference

Where the Storage Development Community Connects
San Jose, CA • Dolce Hayes Manion • September 10-13, 2007

New Solutions from the Best Storage Development Minds in Security, Technology and Management

Now expanded to include 1 FULL DAY of technical tutorials - with an agenda designed by SNIA's Technical Council, this year's annual conference covers all the storage development issues utmost on your mind right now. You'll hear about File & Object Storage, Advanced Technologies, Storage Management, NFS, Storage Software, iSCSI, Security and more.

This is the only conference that focuses on the issues that matter to developers. That's why so many storage application developers, storage management developers, filesystem or host software developers, and storage protocol implementers make it a point to return to this conference every year.

Join us September 10-13, 2007 at the Dolce Hayes Mansion in San Jose, CA.
