Call for Nominations
Editor-In-Chief
ACM Transactions on Storage (TOS)

The term of the current Editor-in-Chief (EiC) of the ACM Transactions on Storage (TOS) is coming to an end, and the ACM Publications Board has set up a nominating committee to assist the Board in selecting the next EiC. ACM TOS focuses on all aspects of storage, including but not limited to network protocols, resource management, data backup, replication, recovery, devices, security, theory of data coding, and energy efficiency. The journal was established in 2005.

Appointed by the ACM Publications Board, EiCs of ACM journals are delegated full responsibility for the editorial management of the journal consistent with the journal's charter and general ACM policies. The Board relies on EiCs to ensure that the content of the journal is of high quality and that the editorial review process is both timely and fair. The EiC has the final say on the acceptance of papers, size of the Editorial Board, and the appointment of Associate Editors. A complete list of responsibilities is found in the ACM Volunteer Editors Position Descriptions. The EiC is expected to adhere to the commitments expressed in the policy on the Rights and Responsibilities in ACM Publishing. For more information about the role of the EiC, see ACM's Evaluation Criteria for Editors-in-Chief.

Nominations, including self-nominations, are invited for a three-year term as TOS EiC, beginning on October 1st, 2022. The EiC appointment may be renewed at most one time. This is an entirely voluntary position, but ACM will provide appropriate administrative support. Nominations should include a curriculum vitae along with a brief statement of why the nominee should be considered. Self-nominations are encouraged and should include a statement of the candidate's vision for the future development of ACM TOS. The deadline for submitting nominations is August 15th, 2022, although nominations will continue to be accepted until the position is filled.

Please send all nominations to the nominating committee chair, Geoff Kuenning (geoff+toseic@cs.hmc.edu), with subject line: "EiC Nomination for ACM TOS".

The search committee members are:

- Geoff Kuenning, Harvey Mudd College, USA (*chair*)
- Angela Demke Brown, University of Toronto, Canada
- Dalit Naor, Tel Aviv-Yaffo College, Israel
- Jiri Schindler, Tranquil Data, USA
- Philip Shilane, Dell Technologies, USA
- Youjip Won, KAIST, South Korea
- Josh Tenenberg, University of Washington Tacoma, USA (*A&S Committee Liaison*)
