Dear Western Pennsylvania Indian-American:

It is our pleasure to announce the creation of the Pennsylvania chapter of the US India Political Action Committee (USINPAC). USINPAC's mission is to impact policy on issues of concern to the Indian American community in the United States.

USINPAC provides bipartisan support to candidates for federal, state and local office who support the issues that are important to the Indian American community. These issues include:

- US-India Relations
- Immigration
- Anti Hate-Crime Measures
- Equal Opportunity and Civil Rights
- Entrepreneurship and Business
- Healthcare and Education

USINPAC hopes to serve as a catalyst for the entry of Indian Americans in the political process. We aim to consolidate individual contributions by actively engaging with every politically active Indian American organization and individual via an effective platform and leverage the combined strength of contributor and community concerns. We will financially support candidates for public office, on a bipartisan basis, who proactively address the concerns of the Indian American community.

The creation of the Pennsylvania Chapter will add to the strength of USINPAC by broadening its reach, simultaneously allowing us to deliver a powerful, localized message.

We ask each one of you to personally get involved and energetically support the organization!

Please see enclosed for details regarding our inaugural event: a reception with Senator Arlen Specter.

Executive Committee and Board of Directors

USINPAC's mission is to impact policy on issues of concern to the Indian American community in the United States.
